Mohammed Ahmer Khan

Senior MEAN Stack Developer | Full-Stack Web Engineer

Results-driven Senior MEAN Stack Developer with 20+ years of IT experience. Specialist in building scalable web applications using Angular, Node.js, Express.js, and MongoDB. Proven track record across banking, logistics, and enterprise sectors. Strong expertise in AWS cloud services, RESTful API architecture, and frontend performance optimization.

20+ YEARS IN IT	7+ YEARS MEAN STACK	5 COMPANIES	AWS CERTIFIED SKILLS
--------------------	------------------------	----------------	-------------------------

PROFESSIONAL EXPERIENCE

Senior MEAN Stack Developer / Senior Angular Developer

May 2019 — Present

Matech Consulting & Outsourcing — Karachi, Pakistan

Leading frontend and full-stack development of enterprise web applications using Angular and Node.js.

- Architecting scalable Angular applications with modern best practices and standalone components
- Full-stack development with Node.js, Express.js, and MongoDB
- AWS deployment, debugging, monitoring with CloudWatch, and server management
- Mentoring junior developers and conducting thorough code reviews

Senior Web Developer — MEAN Stack

Feb 2015 — May 2019

Zaavia — Karachi, Pakistan

Transitioned into full-stack MEAN development, building dynamic web applications from the ground up.

- Built and maintained MEAN stack applications from scratch
- Implemented RESTful APIs with Node.js and Express.js
- Worked with MongoDB for flexible, schema-less data modeling
- Adopted modern JavaScript (ES6+) practices across the codebase

IT Specialist

Jul 2010 — Jan 2015

National Bank of Pakistan — Karachi, Pakistan

Managed IT infrastructure and systems for one of Pakistan's largest financial institutions.

- Maintained and secured banking IT infrastructure across multiple branches
- Managed network systems, server environments, and compliance protocols
- Provided technical support and ensured high system availability

Network Administrator

Feb 2007 — Jun 2010

Union Exports Textile Mills — Karachi, Pakistan

- Designed and managed corporate network architecture
- Implemented network security protocols and backup systems
- Maintained server infrastructure for a manufacturing environment
